FOR IMMEDIATE RELEASE

BEACH ADVISORY

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci Bacteria and Turbidity, which is a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at 32 designated beaches throughout the Territory during the week of November 14-18, 2016. Please Note **Please Note: Princess Condo Row was not sampled this week due to lack of access.** The following beaches **meet water quality standards and are safe for swimming or fishing:**

St. Croix

Protestant Cay
Buccaneer
Cramer Park
Pelican Cove (Comorant)
Shoy's

Rainbow
Chenay Bay
New Fort (Ft. Louise)
Augusta
Halfpenny

Grapetree Bay
Cane Bay
Stoney Ground
Frederiksted Public Beach

St. Thomas

Coki point
Secret Harbor
Bolongo Bay
Frenchman's Bay
Hull Bay
Lindquist
Bluebeards

Sapphire
Magen's Bay
Lindbergh Bay
Brewer's Bay
Vessup Bay
Water Bay

St. John

Cruz Bay

Great Cruz Bay

Johnson Bay

Oppenhiemer

Frank Bay

The following beaches **do not meet water quality standards because they exceed the established Enterococci Bacteria threshold and therefore are not considered to be safe for swimming or fishing:**

St. Croix

Dorsch

High levels of Enterococci Bacteria and Turbidity may be caused by runoff due to heavy rains, heavy marine vessel traffic, high wave activity near the shoreline, irresponsible recreational use, etc. Runoff can consist of sediment, pesticides, animal feces and oil & grease, all of which are harmful to the waters of the Territory.

DPNR will continue to monitor these popular swimming areas. DPNR also recommends that you use your own discretion when swimming or fishing at the designated beaches. If the waters appear muddy or murky or have foul odors, do not swim or fish. For additional information regarding water quality call the Division of Environmental Protection at 773-1082 in St. Croix.
